

FINISH WITH FINESSE

Hardware details receive a glamorous update.

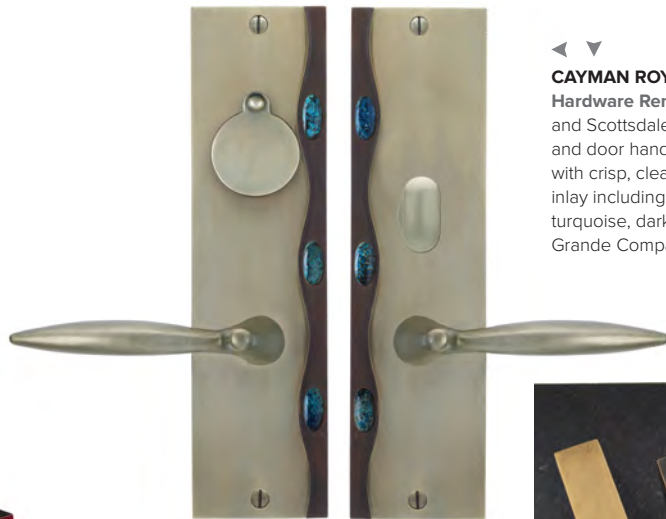

BY REECE JACKSON

After carefully selecting your cabinetry, countertops and flooring—finishing a room with the finer details is like applying icing to a cake—hardware is the final application of polish and panache. From door handles and drawer pulls to bath fittings, this year’s pieces receive a touch of glam. Drawer pulls are adorned with semi-precious stones and made from colorful glass, faucet handles glimmer in jeweled tones and bronze, no longer reserved for solely traditional designs, is everywhere. Here’s a look at this year’s haute hardware.
